ABOUT ME

I am a versatile Full-Stack Developer and Designer with expertise in web development, UI/UX, and graphics design. I build modern, responsive, and user-focused websites using both frontend and backend technologies. With a strong eye for design, I combine clean code with visually appealing layouts to deliver complete digital solutions. I am committed to learning continuously, improving efficiency, and creating projects that balance performance, creativity, and functionality.

WORK EXPERIENCE

web Developer   2022 – 2025

- Developed dynamic and responsive web applications using React, Node.js, Express, and MongoDB.
- Built secure APIs and integrated third-party services for authentication, payments, and data handling.
- Optimized performance and improved loading speed using best coding practices.
- Collaborated with designers and clients to translate requirements into functional systems.
- Maintained code quality through version control (Git) and clean development workflows.

Graphics Designer   2016- 2019

- Designed logos, banners, posters, social media content, and complete brand identity packages.
- Created visually appealing layouts using Adobe Photoshop, Illustrator, and Figma.
- Collaborated with clients to understand branding needs and deliver creative concepts.
- Produced design assets for marketing campaigns, websites, and app interfaces.
- Ensured consistent visual style and brand communication across all platforms.
